Surgical
Instruments

AESMSST
Microsurgical
Forceps, 1 x 2
serrations
€ 450,-

Microsurgical forceps with 1x2 teeth for grasping and mobilising soft tissue, and also for precise and safe hold during suturing.

AEMSTCO
Cooley Atraumatic
Micro Forceps
€ 430,-

The special serration of the tweezers' beak distributes the pressure over a large area and therefore holding even the finest soft tissue in an atraumatic, safe and gentle manner.

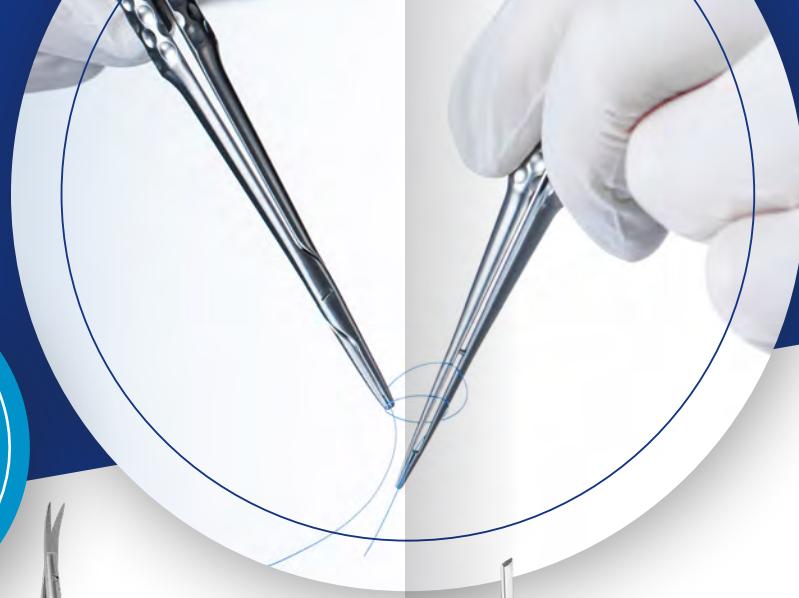

AESMSNH
Micro Needle Holder
€ 590,-

For needle sizes from 5/0-8/0. Particularly smooth locking mechanism. The diamond coating guarantees a secure grip and minimal wear. No sharp edges, especially at the turned hinge and at the working ends. No accidental jamming or separation of the suture material possible.

AESMSSM
SuperCut Micro
Scissors, Micro
Serrated
€ 530,-

For soft tissue management, suture removal and microsurgical procedures. The Super-Cut grinding of the upper blade cuts as smoothly and precisely as a scalpel. The second blade is micro-serrated and supports the secure hold of soft tissue or suture material.

AESPUGSP
Periosteal Glickman
€ 70,50

Consists of a slender sharp rasp on one side and a triangular shaped, sharp working end of the blade on the other.

AESPBU
Buser Elevator
€ 70,50

The lance-shaped end is particularly good for mobilising the papilla, and the gingival margin.

AESMSPE
Papilla Elevator
€ 70,50

Particularly graceful working ends for mobilisation of the papilla. But also for other implantological / microsurgical interventions and for soft tissue management very well suited for initial mobilisation.

AESCLU11 Lucas Surgical Curette
ergonomic, 2,0 mm
€ 44,-

AESCLU22 Lucas Surgical Curette
ergonomic, 2,5 mm
€ 44,-

AESCLU33 Lucas Surgical Curette
ergonomic, 3,0 mm
€ 44,-

Lucas Surgical curettes are also called Lucas-Scrapers. The extended working ends are particularly suitable for bone curettage, debridement of the alveolus after extraction and cyst removal. The ergonomic handle allows for maximum comfort and control of the power transmission.

AESPUNC15 UNC 15 Periodontal Probe, 1 mm Scale Increments
€ 28,-

AESH51 Dental Mirror Handle
€ 20,70

AESSH5 Scalpel Blade Handle
The ergonomic round handle offers maximum comfort and allows for easy readjustment of the cutting position.
€ 34,50

AESBRFRIEM

Mini-Friedmann Bone Rongeur Forceps
 Particularly fine rongeur/hollow chisel pliers
 for contouring bones and
 coarse tissue.

€ 164,49

AESNHMH2
Needle Holder Mayo-Hegar
TC, 16 cm
€ 130,05

Suitable for 3/0-4/0 needle sizes.
 TC carbide inserts guarantee
 a secure grip and minimal
 wear and tear. No sharp edges.

Recommended!

AESSUFSC
Ultra-Fine Scissors, SuperCut
€ 109,-

The American Eagle Ultrafine scissors
 combine the precision of micro
 scissors and the familiar handling
 of standard scissors. The SuperCut
 grinding of the blades makes cuts as
 smooth and precise as with a scalpel.
 The second blade is micro-serrated.

AESSIRC
Iris Scissors, Curved, 11 cm
€ 32,73

Finely worked cutting edges for
 precise cuts.

AESNHBA
Macro/Micro Needle Holder,
TC, 18cm
€ 449,-

Suitable for needle sizes from
 4/0 to 6/0. Round handles for precise
 guidance and comfort. Particularly
 smooth locking mechanism. TC car-
 bide inserts guarantee a secure grip
 and minimal wear and tear. No sharp
 edges, especially on the hinge and the
 carbide inserts.

AESPLXD
PerioLUX Distal € 79,50

AESPLXM
PerioLUX Mesial € 79,50

AESREHEID1
Heidbrink Root Tip Elevator 1 € 73,50
 fine, ergonomic

AESREHEID2
Heidbrink Root Tip Elevator 2 € 73,50
 medium, ergonomic

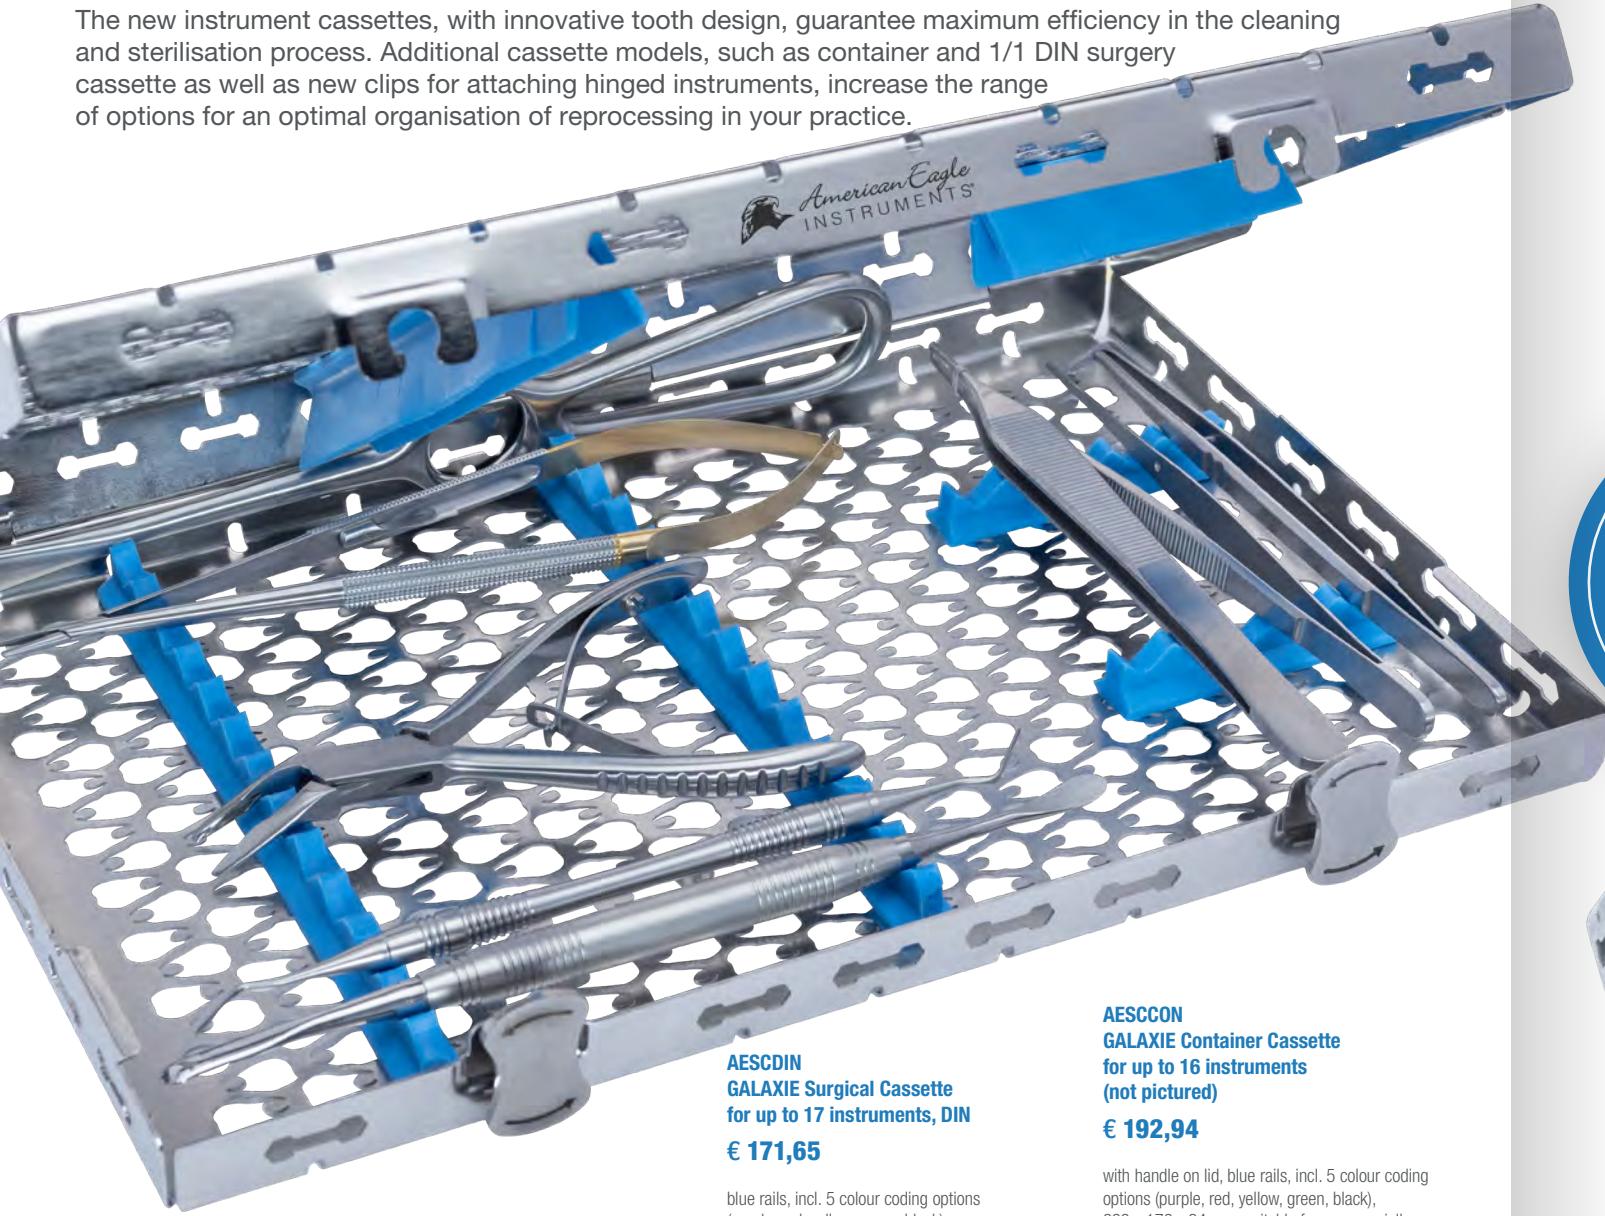

AESREHEID3
Heidbrink Root Tip Elevator 3 € 73,50
 heavy, ergonomic

PerioLUX instruments are a further development of the
 already known luxation instruments/elevators. Due to the
 axial application in the pencil handle, the user has
 maximum control over the force applied and protects the
 surrounding bone structures.

Heidbrink root tip lifters are available in 3 strengths/sizes, for the safe removal of root residues/tips. The working
 ends are extended for better access into the alveolus. The easy to clean grooves in the handle design ensure
 secure grip and maximum power transmission.

The gold standard for instrument reprocessing

The new instrument cassettes, with innovative tooth design, guarantee maximum efficiency in the cleaning and sterilisation process. Additional cassette models, such as container and 1/1 DIN surgery cassette as well as new clips for attaching hinged instruments, increase the range of options for an optimal organisation of reprocessing in your practice.

**AESCIN
GALAXIE Surgical Cassette
for up to 17 instruments, DIN
€ 171,65**

blue rails, incl. 5 colour coding options (purple, red, yellow, green, black), 285 x 183 x 37 mm

**AESCCON
GALAXIE Container Cassette
for up to 16 instruments
(not pictured)
€ 192,94**

with handle on lid, blue rails, incl. 5 colour coding options (purple, red, yellow, green, black), 268 x 176 x 34 mm, suitable for commercially available DIN sterilisation containers

**AEC1/2DIN
GALAXIE cassette
for 10 instruments, 1/2 DIN
€ 112,04**

blue rails, incl. 5 colour coding options (purple, red, yellow, green, black), 185 x 148 x 37 mm

Can be expanded to a cassette for 20 instruments. Additional retention rails are required.

4+1*
on
Scaler / Curettes in
XP Technology®
Suggested retail price
€ 84,53 per instrument

XP Technology®

Switch now for long-lasting and stunning performance with no sharpening.

Thinner tip design

As XP Instruments are sharpen-free, they have been designed with a thinner tip. This allows for easier access to periodontal pockets and interproximal areas.

More comfort, less fatigue

An instrument that is always sharp means only slight pressure is needed to lightly "plane" away calculus and tartar.

Stay sharp instruments

Perfect working ends throughout the life time of the instrument.

*Valid for all double-ended scalers and curettes (except Double Gracey)

Only two instruments for all tooth surfaces:
Barnhart 5-6
Universal curette
+ M23 Scaler

Quik-Tip™

XP Quik-Tip™ interchangeable tips - save money and reduce waste

After wear of the working ends, the handle remains in the practice. Only the two tips are replaced. This saves you money and reduces unnecessary waste. The handles are available in different versions and colours. Thus, numerous individual models can be created. The accompanying wrench enables quick, convenient replacement of the Quik-Tip™ tips.

Available for scalers, curettes and Gracey curettes. The assembled instruments can be reprocessed in the thermo washer disinfectant.
